CONSERVE AIR FUEL DOLLARS

YOUR CAR

- Keep the engine in tune. Check plugs, points, fuel and air filters and emission control devices.
- Keep tires inflated to the maximum recommended pressure.
- Prevent gas-tank overflow by not filling it to the neck.

YOUR DRIVING

- The most economical speed varies from car to car. Therefore, find and maintain the moderate, legal speed that is best for your vehicle.
- Accelerate smoothly and gradually; fast "get-aways" eat gas.
- Maintain a steady speed as traffic permits.
- Anticipate traffic signals to minimize stop-and-go driving.
- Build up speed before reaching an up-hill grade, not on it.
- Turn off the engine if you must park for more than a minute.
- Reduce long warm-ups by driving slowly rather than idling a cold engine.

ON THE ROAD

- Select the optimum route in terms of distance and type of highway. An AAA Travel Counselor can assist you.
- Combine short trips, such as visits, errands and shopping.
- Travel light and avoid using a car-top rack. The less weight and wind resistance, the better the mileage.
- Reduce the use of air conditioning.
